

EinScan-Pro™

“The ability of the EinScan-Pro being used in so many different scenarios makes it a capable scanner of choice.”

Quick, Accurate & Easy

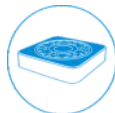

This next-gen EinScan-Pro is a revolutionary all in one handheld 3D Scanner designed for capturing complex geometry. Featuring multiple modes of operation, allows you to capture from small precision parts to large complex geometry.

“No other scanner offers you so much flexibility than the EinScan-Pro”

No Scan Limits

Well engineered and built for precision, portable and lightweight 3d scanning.

Fully-automated turntable with self calibration, captures 360 degree scans in around 90 seconds.

Mount the EinScan-Pro onto a tripod and you'll be able to capture larger objects in HD.

Attach the colour module and scan in brilliant colour with highly detailed textures.

FEATURES

- Extremely versatile with four different scan modes. Use EinScan-Pro for small to large objects.
- Fast and Accurate with scan accuracy down to 0.05mm on a single scan.
- Auto-rotation stitching allows for on the fly alignment in real-time.
- Can be used with or without target points.
- Full unrivalled 12 month warranty with local support.

Quick, Accurate and Simplified 3D Scanning

FAST • EASY • PRECISE

Scan Mode	Handheld HD Scan	Handheld Rapid Scan	Auto Turntable Scan	Free Scan
Accuracy	0.1mm	0.3mm	Single scan accuracy: 0.05mm	Single scan accuracy: 0.05mm
Scan speed	15 frames/sec	10 frames/sec	Single scan: <2secs	Single scan: <2secs
Point distance	0.2mm-2mm	0.5mm-2mm	0.16mm	
Single scan range	210 mm x 150 mm			
Light source	Structured White light LED			
Part size range (recommended)	0.03m-4m	0.15m-4m	0.03m-0.15m	0.03m-4m
Align mode	Mark point align	Feature align	Turntable align	Compatible with either mark point align, feature align or turntable alignment
Texture scan	No	Yes (Requires colour texture module)		
Outdoor operation	Cannot be used in bright light environments			
Special objects	--	Requires object with texture	--	--
Printable data output	Yes			
Data format	OBJ, STL, ASC			
Scan head weight	0.8kg			
Operating System	Windows 7 64bit, Windows 8 64bit, Windows 10 64bit
